most under-resourced communities: 72 percent of Scholars are the first in their families to attend college, and 40 percent of their families live below the poverty line.

Yet these students demonstrate extraordinary potential: their college GPAs are typically 30 percent higher than their peers and, with the support of the Greenhouse Scholars program, their chances of graduating from college are eight times higher than other low-income and first-generation students. Since 2005, Greenhouse Scholars has served nearly 100 students.

Greenhouse Scholars is a 501(c)(3) non-profit organization. For more information about the organization and its events, visit [Facebook.com/GreenhouseScholars](https://www.facebook.com/GreenhouseScholars) or www.GreenhouseScholars.org.
